This is a standardized bio-psycho-social assessment designed to help clinicians gather information for diagnosis, placement, and treatment planning. As with any self-report it is limited by the veracity of the individual respondent's answers and should be combined with other information collected by an appropriately trained staff person prior to taking any specific actions.

The information on this form must be handled in the strictest confidence and will not be released to unauthorized personnel. In accordance with the provisions of the Privacy Act of 1974, unauthorized disclosure can result in fines up to \$5,000 for each violation. All staff with access to the specific answers on this form must understand this restriction and agree to resist sharing specific answers without prior written consent.

The current version of this instrument was developed by Dr. Michael Dennis and others at Chestnut Health Systems under a grant from the Center for Substance Abuse Treatment (TI 11320). It draws heavily on earlier versions developed for the National Institute on Drug Abuse, National Institute on Alcohol Abuse and Alcoholism, and the Interventions Foundation. It also incorporates several scales and questions based on the National Household Survey on Drug Abuse and work by the American Psychiatric Association and the American Society of Addiction Medicine, as well as by the following individuals: L. Adams, D. Anglin, J. Becnel, P. Bokus, K. Bossert, V. Burgest, J. Caddell, W. Compton, W. Condelli, G. Deleon, L. Deragotis, S. Eisenberg, J. Fairbank, P. Flynn, J. Fraser, M. French, D. Fountain, R. Funk, M. Godley, S. Godley, R. Hagen, H. Higgins, R. Hubbard, P. Ingram, J. Jaffe, A. Jones, G. Karuntzos, R. Katzman, M. Kenney, B. Lee, M. McDermeit, A.T. McLellan, S. Ray, R. Risberg, K. Rourke, B. Rush, C. Scott, E. Senay, D. Simpson, A. Sodetz, M. Strauss, J. Titus, J. Unsicker, H. Waldron, R. Webber, W. Wechsberg, W. White and others who are more fully acknowledged in the manual.

Introduction and Purpose

This assessment is designed to help us track how you are doing before, during and after treatment or counseling. The information we collect will only be used for your treatment and to help us evaluate our own services. This initial assessment has questions about what you have done, what services you are using and what you currently want from us, either directly or through referral. Depending on how much has been going on in your life, it will take between 30 and 90 minutes to complete. You can take a break if you need to. If there is anything you do not understand, your intake worker or counselor will explain it. When you are done, a counselor will also go over the results with you as part of treatment planning.

This is the first part of treatment or counseling. It is designed to help you tell us what your problems are, how they are related, and what you want from us. Together we will use it to decide what to work on first.

As with everything we do in treatment, your answers are confidential and are protected under the Privacy Act of 1974. We can be fined up to \$5,000 for revealing information about you without your consent. All staff with access to your answers understand this restriction and have agreed to resist sharing your specific answers without your prior written consent or a court order.

General Directions

Several questions will ask you about things that have happened during the past year or past 90 days. To help you remember these time periods, please look at the calendar at the end of this document. First, find today's date and circle it. Next, count back 13 weeks to about 90 days ago and circle that date. Do you recall anything that was going on then? Now write down what you can remember about that date next to it. When we talk about things happening to you during "the past 90 days," we are talking about things since that date.

Now, go back to a year ago and circle that date. Do you recall anything that was going on then? Write that down too. When we ask about things happening in the past year we mean since that date. Please keep this calendar handy and use it as we go through the interview to help you remember when different things happened.

As we go through the questionnaire we will either be circling an answer or filling in a box. It is important that you try to answer each question if you can and are willing to. We know that you will not always know the exact answer and may have to give us your best guess. For instance, when we ask you about the number of days or times something happened, we are trying to understand if something happened often, sometimes or never. You can also tell us if you simply "do not know" or if you do not want to or refuse to answer any questions.

Do you have any questions?

A2. Check for Cognitive Impairment

Because we are going to ask you a lot of questions about when and how often things have happened, I need to start by getting a sense of how well your memory is working right now.
