This is a standardized assessment designed to help clinicians and program evaluators track client progress. As with any self-report it is limited by the veracity of the individual respondent's answers and should be combined with other information collected by an appropriately trained staff person prior to taking any specific actions.

The information on this form must be handled in the strictest confidence and will not be released to unauthorized personnel. In accordance with the provisions of the Privacy Act of 1974, unauthorized disclosure can result in fines up to \$5,000 for each violation. All staff with access to the specific answers on this form must understand this restriction and agree to resist sharing specific answers without prior written consent.

The current version of this instrument was developed by Dr. Michael Dennis and others at Chestnut Health Systems under a grant from the Center for Substance Abuse Treatment (TI 11320). It draws heavily on earlier versions developed for the National Institute on Drug Abuse, National Institute on Alcohol Abuse and Alcoholism, and the Interventions Foundation. It also incorporates several scales and questions based on the National Household Survey on Drug Abuse and work by the American Psychiatric Association and the American Society of Addiction Medicine, as well as by the following individuals: L. Adams, D. Anglin, J. Becnel, P. Bokos, K. Bossert, V. Burgest, J. Caddell, W. Compton, W. Condelli, G. Deleon, L. Deragotis, S. Eisenberg, J. Fairbank, P. Flynn, J. Fraser, M. French, D. Fountain, R. PURPOSE AND INTRODUCTION

This assessment is designed to help us track how you are doing during and after treatment or counseling. The information we collect will only be used for your treatment and to help us evaluate our own services. This assessment has questions about what you have done and what services you are using. Depending on how much has been going on in your life, it will take about 20-30 minutes to do. If there is anything you do not understand, I will explain it.

This form is designed to help you tell us how you are doing. We will use it to evaluate our own services and plan a better program.

As with everything we do in treatment, your answers are confidential and are protected under the privacy act of 1974. We can be fined up to \$5,000 for revealing information about you without your consent. All staff with access to your answers understand this restriction and have agreed to resist sharing your specific answers without your prior written consent or a court order.

GENERAL DIRECTIONS

Several questions will ask you about things that have happened during the past year or past 90 days. (To help you remember these time periods, please look at the calendar on the next to the last page. We have marked today's date and about 90 days ago when we last interviewed you. When we talk about things happening to you during "the past 90 days" we are talking about things since your last interview. (Please use this calendar as we go through the interview to help you remember when different things happened.)

It is important that you try to answer each question if you can and are willing to. We know that you will not always know the exact answer and may have to give us your best guess. When we ask you about the number of days or times something happened, for instance, we are trying to understand if something happened often, sometimes, or never. You can take breaks if you need to and always have the right to refuse to answer any question.

Before we begin, do you have any questions?

A2. Check for Cognitive Impairment

Because we are going to ask you a lot of questions about when and how often things have happened, I need to start by getting a sense of how well your memory is working right now.
